New Warriors

New Warriors—Or Not So New?

They're bringing super-heroes to justice... and while they're at it, they're defacing Superhuman Registration posters. They're keeping their identities secret... but they're spray-painting the initials N.W. at the scene of their "interventions." They're unknown heroes... but they're going to be familiar faces to Marvel fans.

Welcome to the world of ***New Warriors.***

This ongoing series, the latest super-team book to grow out of the events of ***Civil War,*** focuses on a team that chooses to take the name of one of the most unpopular super-teams in history: the group that was blamed for the Stamford Disaster, the event that paved the way for the Superhero Registration Act.

"Who are these new New Warriors?. They're super heroes you already know, sporting new superhero identities," editor *Axel Alonso* said. "Why did they adopt new identities, you're asking? That's a slowly unfolding mystery that we'll reveal in the course of the first two arcs. The first question, of course: Is this an entirely new team…or did some -- or all -- of the original New Warriors survive the catastrophe at Stamford? Or is the truth somewhere in between?"

New Warriors writer *Kevin Grevioux* is the first to acknowledge how difficult it can be to establish a new super-team book in a superhero universe populated by numerous high-profile teams. "A book like this is pretty much operating in virgin territory. Given that Cap's side lost Civil War, the landscape of the superhero is radically different now. Characters cannot behave in typical ways anymore. So now you have an environment in which any super-powered behavior outside of what is deemed legal by the new status quo brands you an outlaw. It is out of that crucible that I found my initial concept and how the characters can still function despite these new obstacles. This alone makes it different than the old team, and gives it a unique position in the Marvel Universe.

"Now, the challenge will be to maintain this unique position while at the same time bringing in new and old members, characters and villains to make this a really exciting book. I can't tell you how fun this has been."

What is the *raison d'etre* for the New Warriors? "In a word… *resistance,*" Grevioux explained. "They don't like the fact that heroes now have to register. The analogy may not completely fit, but it's akin to slaves walking around with 'freedom papers' in the South after the war is over. The New Warriors are thinking that if secret identities, anonymous heroism and the like were good enough for Spider-Man and other superhumans back in the day, it should still be good enough now.

"For them, registration is yet another way for 'The Man' to control the masses. The New Warriors know, or they think they know, where that kind of control can ultimately lead, and they will fight it to their last dying breath to make sure that doesn't happen."

You think that Captain America's anti-registration team challenged the status quo? Wait 'til you meet these guys! "These new New Warriors are more rebellious—probably more rebellious than any super-team we've seen in some time. And probably more rebellious than Cap's crew was. Their thinking is that there are people out there who need their help and you can never have enough heroes. That's like saying there are too many good Samaritans around. That's ridiculous.

"Unfortunately, the public doesn't see it that way, and because of that the group has become a serious political liability to the powers-that-be. Not only in America, but the world. And the methods they use to implement their personal crusade are really going to get under a lot of people's skin. A lot of *powerful* people."

"Tony Stark is not happy with the New Warriors at all. First of all, they're using the name New Warriors. An infamous name that already comes with a lot of negative baggage given what happened at Stamford. The public is going to be outraged by this and they're going to look to the government, specifically S.H.I.E.L.D. to do something about it and squash them before something bad happens again.

"Secondly, their mere existence is going to upset the apple cart in a way that not even Luke Cage's New Avengers are going to do. This will undermine everything Stark has tried to do over the course of the last year. Why? Because even though the vast majority of the public likes the new status quo, there's still a segment of the public that doesn't. You see, these are kids that are spear-heading the resistance, not adults. And kids often don't understand the ramifications or consequences of what they're doing to because often they lived long enough to see tragic loss. As a result, Stark sees them as dangerous because it makes them very fearless and even reckless.

"One of the unforeseen ramifications is that the New Warriors have unwittingly created a kind of youth movement or subculture amongst the populace. A subculture that a growing number of the youths have bought into it. Youths from all over the world. And like with any subculture, its influence grows and spreads to the adult populace. This could have a profound effect on the way the rest of the world perceives the rightness or the wrongness of the Superhero Registration Act. Stark can't have global public opinion swinging against him, and so he is forced to do something about the new team.

"I think the ironic thing about this series is that the New Warriors don't necessarily look at themselves as superheroes. At least not in the conventional sense like their predecessors did.

"Remember, in this post-Civil War/'Reconstruction' era, the traditional superhero has gone the way of the dinosaur. These new New Warriors look at themselves more as soldiers or freedom fighters of a sort, much like the French Resistance during World War II. Or better yet, the group of kids who called themselves the Wolverines in the movie Red Dawn. The only difference is that they're not out to bomb government buildings, hurt people or even center on Stark as the focal point of their ire. They don't like this new registration system and they'll do whatever they need to do to show people how wrong it is. They'll use hit-and-run techniques to stay ahead of the Initiative and S.H.I.E.L.D. and to do what has to be done.

"In other words, they'll save people by any means necessary. Just like the old days. And if they feel the occasional urge to tag a few registration posters or S.H.I.E.L.D. vehicles in the process, they'll do that too."

As you might expect, a team like this is going to attract superheroic attention—and that's going to lead to some high-profile conflicts. "We'll be seeing a crossover with *Dan Slott's* ***The Initiative*** as well as a few other titles," Grevioux said. " It's going to be a battle royale! Everyone and their brother will be after the New Warriors. The thinking is that these crazy kids are going to spoil it for everyone, so they have to be put down and put down hard. The kids will have their hands full. Not only with the execution of their mission, but the inevitable pursuit from other superheroes that will dog them throughout the series.

"I wouldn't be surprised if Stark gave out a special citations, commendations or medals of honor for whoever brings the New Warriors to justice. So that adds some motivation to hunting the kids down. This book is one where we are going to have guest-stars galore!"

Grevioux offered a rundown on the core members of the New Warriors:

- **Wondra**: "I wouldn't say she's the star, but she's definitely an alpha personality and thus a leader type. To see exactly what her role on the team will be, you'll have to wait and see. I will say she may be the most powerful member of the team."
- **Tempest**: "She's a young black girl with semi-elemental powers. She can generate wind, cold and fire."
- **War Hawk**: "He's a white kid with the ability to fly obviously and has a host of cool weapons at his disposal."
- **Decibel**: "He's also a white kid who of course has sonic powers given his name. Once you see him in action, you might notice the strange connection he has to another familiar character in the Marvel Universe."
- **Ripcord**: "She's a white female, who given her power set, is not someone you really want to mess with."
- **Renascence**: "Also a white female, she has a host of different abilities that are constantly changing over time depending on her mood."

And that's not the entire line-up. According to Grevioux, there will be other heroes, "plus a few secret associates that the team will be dealing with in the coming months."

New heroes... rebellion... super-confrontations... it's the sort of stuff of which great super-teams are made. "I think people will really enjoy this book. But, don't expect it to be your father's ***New Warriors,*** though. This is *your New Warriors*. The New Warriors of the future. The New Warriors that will make their own mark in the Marvel Universe. And even though they're at war with the other heroes in the Marvel Universe (and oft time with each other), their future is as bright as it ever was. Check us out!"

New Warriors #1, a $2.99 comic, is scheduled for June 6th release.
